

**Расписание лекций иностранных специалистов
на физическом факультете на ноябрь**

Dumitru Luca

Department of Physics, Alexandru Ioan Cuza University Iasi.

Пт (11.11.2016) 14:10 ауд. 3-7

- 1 Electron spectroscopies in Surface science - a general view and examples.
2. XPS and UPS techniques for analysis of surfaces and interfaces.

Пн (14.11.2016) 14:10 ауд. 2-11

3. High resolution elemental analysis of elemental composition of thin films and interfaces.
4. (Optional) Modelling surface reactions under ion bombardment.

Marius Dobromir

Department of Physics, Alexandru Ioan Cuza University Iasi.

Пт (11.11.2016) 15:55 ауд. 3-7

Synthesis and characterization of soft amorphous magnetic thin films

Mihaela Luca

Institute of Computer Science, Romanian Academy, Iași branch, Iasi, Romania.

Пт (11.11.2016) 14:10 ауд. 4-27

1. Some researches in fuzzy logic for automation: an overview
2. A review of several applications of FL in modeling and in 1D/2D signal processing

Пн (14.11.2016) 14:10 ауд. 3-29

3. Image featuring in LAB colour space
4. Iris features using DTCW transform in texture evaluation for biometrical identification

Чаус Станислав Александрович

Словакский технический университет», г. Трнава, Словакия

Bm (15.11.2016) 14:10 ауд. 2-25

1. Теоретические основы и общая характеристика инструментальных сталей.
2. Классификация инструментальных сталей по назначению.

Ch (16.11.2016) 14:10 ауд. 3-29

3. Требования к свойствам инструментальных сталей.
4. Теоретические основы и общая характеристика быстрорежущих сталей.
